

Momentive to Showcase Silicones Solutions for Electronics at 2008 Hybrid Vehicle Technologies Symposium *Breakthrough Materials for Heat Transfer, Component Protection Helping Manufacturers Design for the Future*

WILTON, Conn., February 13, 2008 — Momentive Performance Materials will be highlighting a wide range of silicone-based solutions for consideration in automotive electronics at SAE International's 2008 Hybrid Vehicle Technologies Symposium, which begins today in San Diego, California.

Momentive's solutions on display at booth #26 include a full range of materials that automotive designers and manufacturers can consider to help achieve the performance advances that hybrid vehicle consumers are demanding. These include SilCool* thermal management materials for electronics heat transfer, a full range of conformal coatings and encapsulants to help protect electronic components from heat and stress, and high-strength fast cure primerless adhesives.

The hybrid revolution is transforming the automotive market, and advances in the protection of electronics components is critical in the design," said Gail Riley, automotive marketing manager, Momentive. "The range of silicones solutions that we offer may help automotive parts manufacturers design for the future and create next generation products that offer consumers exciting new features, higher performance or improved reliability."

Application development, product customization and global project support is available from Momentive. To find out more about Momentive's potential silicone solutions for automotive please call 800.295.2392 in North America (+607.786.8131 everywhere else) or visit www.momentive.com.

About the Company

Momentive Performance Materials Inc. is a premier specialty materials company, providing high-technology materials solutions to the silicones, quartz and ceramics markets. The company, as a global leader with worldwide operations, has a robust product portfolio, an enduring tradition of service excellence, and industry-leading research and development capabilities. Momentive Performance Materials Inc. is controlled by an affiliate of Apollo Management, L.P. Additional information is available at www.momentive.com.
